

Renewing your Site Traffic Management Specialist (STMS) warrant

Use these steps to guide you through renewing your STMS warrant – your current STMS warrant will remain valid until it expires.

STMS REFRESHER WORKSHOP

One-day workshop run by a TTM Trainer, that will update you on changes to CoPTTM since your last warrant was issued.

DEVELOPMENT PLAN

If you don't pass the refresher workshop or practical assessment, the TTM Trainer or TTM Mentor will agree with you the actions you need to take to pass. This might include mentoring, re-testing or some more learning.

PRACTICAL ASSESSMENT

You will complete a practical assessment with a TTM Assessor. They will confirm if you are at the right skill level to be in charge of a worksite.

The practical assessments are different for each category of road. To be warranted as a Practising STMS you must pass the practical assessment for each category of road you will be working on.

MENTORING

Mentoring can happen at anytime during this process. TTM Mentors provide you with on-job coaching to help you meet the required standards to be an STMS.

Get ready
4 months out

Get your Non-Practicing STMS Warrant
3 months out

A mentor can help you with your Refresher learning.

Get your Practising STMS Warrant
1-2 months out

A mentor can help you get ready for your practical assessment, and/or work with you to help you get ready to re-sit (if you didn't pass the first time round).
