

TTM WORKER TRAINING

TRAINING
ASPIRATIONS
FACILITATES
A NEW NZTA
HANDS-ON
PROGRAM

COURSES STARTING 2019-2020

COURSE OVERVIEW

Temporary traffic management (TTM) Worker Training is for workers who assist with TTM under direction, such as by the Site Traffic Manager (STMS).

TTM Worker is the new entry level training for people joining the TTM industry.

It is a one day workshop which includes:

- knowledge of TTM Worker's role and responsibility
- practical skills to perform TTM Worker's duties.

ABOUT THE TRAINING

PARTICIPANTS WILL ACQUIRE SKILLS AND KNOWLEDGE BY:

- Participating in training and mentoring provided by experienced TTM Mentors to learn about different aspects of a work site and how to keep everyone safe.
- The TTM Mentor will determine if the participant has met all criteria to gain this module
- An assessor will determine whether the participant is competent.

This training and assessment will take place in a yard (or other environment) and on a live site.

COURSE STRUCTURE

**One day of training;
approximate timings:**

- 2 hours knowledge training
- 3 hours practical in safe environment
- 2 hours on-site practical
